

The right choice
TO CONNECT YOUR BUSINESS

DATA CENTER SERVICES

Decades of advancements in computing, data storage, and telecommunications have brought profound changes to the Enterprise computing and IT landscape. Despite these changes, the Data Center remains at the heart of every large corporate IT facility. Whether you are connecting a 40G fiber optic cable or a bundle of Ethernet cables, selecting a cabling provider who is well-versed in best practices and has decades of Data Center experience is paramount.

ABOUT US

Since 1984, ComNet Communications LLC has been installing and maintaining mission-critical network infrastructure systems for enterprise companies.

In addition to traditional voice/data cabling, we have developed the capabilities and reputation as an industry leader for data center, audio visual, physical security and wireless installations.
