

# FOOD & BEVERAGE

**LOCATION:** National

**SITES:** 250+

**VALUE:** \$5,000,000+ (Ongoing)

ComNet has the pleasure of working with one of the largest food distributors in the country, helping them with new installations and refresh of existing cabling for their wireless infrastructure and data end points in their warehouse distribution facilities across the US, Canada, and Puerto Rico. Facilities range in size from 30,000 sq. ft. to upwards of 600,000 sq. ft., and varying temperatures from normal office to -15 freezer spaces. ComNet utilizes a dedicated Project Manager and project team from inception to completion of each project. ComNet understands the fast paced, around the clock environment of these facilities and works closely with facility leadership to avoid impacting day to day business and still complete project tasks efficiently and on time.

## SERVICES PROVIDED

- Cat6 cable installation for new or refreshed wireless access point infrastructure.
- Installation of Cat5e cables to create new or update existing data endpoints in various areas, including cubicles, conference rooms, offices, warehouse floor, etc.
- All variations of fiber backbone installation and terminating.
- MDF rack installations. Network equipment rack and stack. Patching in equipment.
- IDF cabinet installations, ranging from a single cabinet to more than 25 in a facility. Ground level or ceiling rafter level. Both new installations and hot swap replacements during outage window. Network equipment rack and stack. Patching in equipment.
- New access point device installation. Demolition of old devices after new system is online.
