FIRST RESPONDER WIRELESS COVERAGE

DID YOU KNOW

There are more than
6.2 MILLION
**commercial buildings in the United States.
Does your building need Public Safety Radio coverage?**

ABOUT COMNET

Since 1984, ComNet Communications LLC has been installing and maintaining mission-critical network infrastructure systems for enterprise companies.

In addition to traditional voice/data cabling, we have developed the capabilities and reputation as an industry leader for data center, audio visual, physical security and wireless installations. Our nationwide footprint makes us the ideal choice for coast to coast support and national rollouts.

NEED FOR PUBLIC SAFETY CONNECTIVITY

The National Fire Code, National Electrical Code, International Fire Code, and International Building Code are all evolving towards National standards that will require In-Building Public Safety coverage for most facilities.

ComNet can ensure your facility has adequate coverage for First Responder Radio systems.
