

HEALTHCARE

CLIENT: Southwest Top Regional Hospital

VALUE: \$500,000+

PROJECT: Installation of copper and fiber infrastructure for a new Radiation Oncology Building and ongoing work in the client's data center.

CHALLENGES

- Customer expectations exceeded industry standards for both material and craftsmanship.
- Meeting customer's tight timeline without disruption of normal business.
- Installation environment consisted of office space, patient treatment rooms, and data center.

SOLUTIONS

- ComNet recommended and specified Category 6A cabling on all projects and singlemode fiber backbone.
- Maintained regular communication with the customer to ensure appropriate labor was assigned throughout the construction schedule.
- Performed off hour work in mission critical environments to ensure minimal customer disruption from normal operations.
- Assigned skilled labor specifically trained to perform work in the customer's differing technology environments.
